

# LETETISHEUCK LETFISHFUCK

aka mimi marsh

I study Interactive Composition at the University of Melbourne, an industry focused degree where I develop commercially relevant skills in music production, sound design, and technology. Through project based learning and cross disciplinary collaboration, I apply these skills in studio environments, preparing me for real world creative and professional practice.

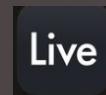

## Arts Internship (MULT20010)

I am an instrumentalist of 15 years and My goal is to work behind the scenes in the music industry and I'm seeking a host who can support industry related, hands on learning. I would love the opportunity to join your team as an intern through this program starting March 2026.

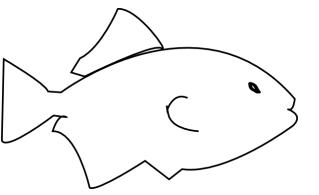

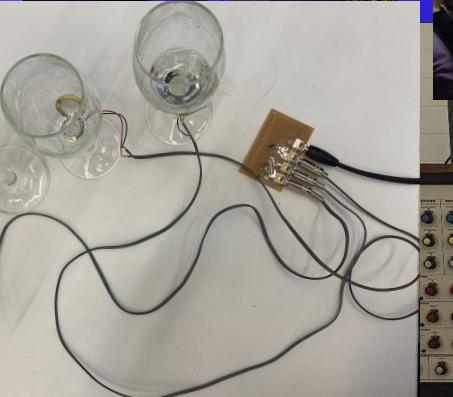

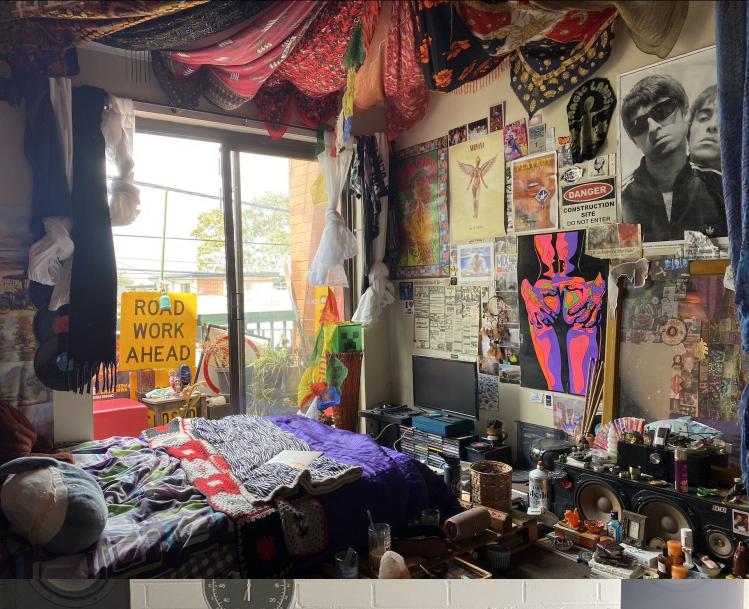

I'm constantly surrounded by musicians of all styles through my university, and I can help connect with and support emerging artists as needed.

I'll scrub toilets with a smile!
